Hi Matt,

Tier II reports are submitted to Texas Department of State Health Services and the local emergency planning committee (LEPC). For DuPont, the LEPC is the LaPorte Office of Emergency Management.

One more thing: Is DuPont's Tier 2 report in Dallas and/or D.C.? Thanks.

Hi Matt,

I confirmed you would have to come to Dallas. If you'd like to do that, please contact Elizabeth Rogers in our Superfund division to set an appointment time. She can be reached at rogers.elizabeth@epa.gov or 214 665-6708.

Jennah: Is there a viewing opportunity in Houston? Or will I need to go to Dallas? Many thanks.

Hi Matt—

I have attached a copy of the administrative order EPA filed earlier this year under the Clean Water Act. Unfortunately there are some regulations that cover how information from RMPs can be released. The only way to view the company's RMP is to schedule an appointment to come to our reading room to view a paper copy. Let me know if you want to do that.

Jennah: Were you able to send the RMP for the La Porte plant? I'm asking because our new spam filter is very sensitive. Thanks.
